## *009.01 (Working Title)*

2019

Mild steel (finishes variable), clear anodized aluminum, brass, borosilicate glass, wiring & bulb.

20 x 28 x 14 inches

009.01 (Working Title) is a lighted sculpture by studioaaa. The sculpture is intended to be placed near an edge of a room to cast light off of a wall, or set dim and turned inwards to throw soft light towards the heart of a space.

009.01 (Working Title) is constructed of two 20" x 20" sheets of steel which are set apart and off of the ground by a 3/8" steel round rod frame. The 3" space between the sheets contains the bulb assembly, wires, dimmer housing and light play from the reflective qualities of the surface finish of the steel. The sculpture is finished with a powder coat (clear or coloured) or hot dip galvanized. The bulb is housed in a clear anodized aluminum holder, which has stainless steel set screws that hold a lathe turned 0.20" thick coloured borosilicate glass cover. The bulb assembly clamps to the frame, at the 45 degree angle of the folded steel sheet. The sculpture evokes the qualities of a dog-eared book, an icon (Document or Flavin (Fig.1)) or of a little character, an incidental light.

studioaaa is a design firm based in Winnipeg, Manitoba, Canada and was founded in 2017.

009.01 (Working Title) is studioaaa's most recent and realized attempt to develop a serialized product for market.
